SUBJECT INDEX

2-(2-Aminophenyl)benzimidazole
Thermochemical studies on copper(II) and nickel(II) complexes of the Schiff base derived from 2-(2-aminophenyl)benzimidazole and salicylaldehyde, 203
Amphiphile
Analysis and interpretation of excess molar properties of amphiphile + water systems. Part 2. Comparisons of the propanol isomers in their aqueous mixtures, 251
Analysis and interpretation of excess molar properties of amphiphile + water systems. Part 3. Excess molar volumes of isopropoxyethanol + water and isobutoxyethanol + water, 259

Calcium carbonate
Quantitative calibration of a TPD–MS system for CO and CO_2 using calcium carbonate and calcium oxalate, 143
Calcium oxalate
Quantitative calibration of a TPD–MS system for CO and CO_2 using calcium carbonate and calcium oxalate, 143
Calcium sulphite
Some aspects of calcium sulphite reduction with carbon monoxide, 307
Carbon monoxide
Some aspects of calcium sulphite reduction with carbon monoxide, 307
Chlorojuglone antibacterials
Thermal and spectral studies of some rare earth chelates of chlorojuglone antibacterials, 285
Cisplatin
Thermodynamic characterization of binding of DNA with cisplatin in aqueous solution by calorimetry, 191
Coal specific energy
DSC determination of coal specific energy, 291
Cu–Zn–Al
The martensitic transformation entropy values of thermal and mechanical origin in shape memory Cu–Zn–Al single crystals, 185
Cyano complexes
Investigation of thermal behaviour of solid transition metals cyano complexes with organic cations, 15

Differential thermal analysis
Applications of differential thermal analysis to the preparation of single crystals, 77
DNA
Thermodynamic characterization of binding of DNA with cisplatin in aqueous solution by calorimetry, 191
DTA
Correction in DTA purity determination, 241

Heat exchange calorimeter
Microcomputer-aided optimal selection of control input for the precision water bath of a heat exchange calorimeter, 175
Herbicides
Thermal analysis of commercial herbicides, 111

Inert gas
Inert gases as a probe for chemical, physical or structural changes in solids, 31
Inert gas diffusion probe
Inert gas diffusion probe of polymer materials, 1
Isobutoxyethanol
Analysis and interpretation of excess molar properties of amphiphile + water systems. Part 3. Excess molar volumes of isopropoxyethanol + water and isobutoxyethanol + water, 259
Isopropoxyethanol
Analysis and interpretation of excess molar properties of amphiphile + water systems. Part 3. Excess molar volumes of isopropoxyethanol + water and isobutoxyethanol + water, 259

KCl
Thermochemical properties of NaCl and KCl solutions in mixtures of water with *N,N*-dimethylacetamide at 25 °C, 299

Lanthanon(III) ions
Determination of thermodynamic parameters and equilibrium constants for complexation reactions involving lanthanon(III) ions with 1,2-naphthoquinone-2-semicarbazone-4-sulphonic acid (sodium salt) (NQS·4S), 279

Lignocellulosic materials
Thermal decomposition of lignocellulosic materials: comparison of the results obtained in different experimental systems, 163

NaCl
Thermochemical properties of NaCl and KCl solutions in mixtures of water with *N*,*N*-dimethylacetamide at 25 °C, 299

NiI_2
Studies of the thermal dehydration reaction of NiI_2 complexes with adenosine, 345

$NiTeO_3$
Thermodynamic stabilities of $NiTeO_3$ and Ni_3TeO_6 by solid oxide electrolyte e.m.f. method, 217

Ni_3TeO_6
Thermodynamic stabilities of $NiTeO_3$ and Ni_3TeO_6 by solid oxide electrolyte e.m.f. method, 217

Noble metal complexes
Simultaneous thermal analysis/mass spectrometric investigations on the thermal behaviour of noble metal complexes, 125

Oxycarbonates
Preparation, thermal stability and luminescence properties of selected rare earth oxycarbonates, 335

Plant oil seeds
TG and NMR analysis of commercial plant oil seeds, 131

Powdered mixtures
Powdered mixtures reactivity by thermal analysis, 43

Propanol
Analysis and interpretation of excess molar properties of amphiphile + water systems. Part 2. Comparisons of the propanol isomers in their aqueous mixtures, 251
Enthalpies of transfer of several ions from water to water–*n*-propanol mixtures at 298.15 K, 319

PVC
The identification of blowing agents in cellular PVC compounds by DSC. Part 1. The detection and identification of sodium bicarbonate, 155

Radioactive inert gases
Application of radioactive inert gases for the investigation of heterogeneous catalysts and other solids, 53

Rare earth chelates
Thermal and spectral studies of some rare earth chelates of chlorojuglone antibacterials, 285

Schiff base
Thermochemical studies on copper(II) and nickel(II) complexes of the Schiff base derived from 2-(2-aminophenyl)benzimidazole and salicylaldehyde, 203

Single crystals
Applications of differential thermal analysis to the preparation of single crystals, 77

Sodium bicarbonate
The identification of blowing agents in cellular PVC compounds by DSC. Part 1. The detection and identification of sodium bicarbonate, 155

Sodium salt
Determination of thermodynamic parameters and equilibrium constants for complexation reactions involving lanthanon(III) ions with 1,2-naphthoquinone-2-semicarbazone-4-sulphonic acid (sodium salt) (NQS·4S), 279

Solid–liquid equilibrium
Solid–liquid equilibrium in a binary system with incongruent melting complex compound, 209

Thermodynamic properties
Excess differential thermodynamic properties, 267

Thin polymer films
The thermodiffusion analysis of thin polymer films, 65

Transition metals
Investigation of thermal behaviour of solid transition metals cyano complexes with organic cations, 15

Tricalcium silicate
The effect of nitrobenzoic and aminobenzoic acids on the hydration of tricalcium silicate: a conduction calorimetric study, 325

Water–*n*-propanol
Enthalpies of transfer of several ions from water to water–*n*-propanol mixtures at 298.15 K, 319

Xenon
The interaction of xenon with *n*-alkane solvents. Comparison between different cavity models, 225

Zirconia ceramics
Experimental study of the thermal expansion of yttria stabilized zirconia ceramics, 39
